FOREWORD

Our customers know that, due to the fact that we are actual growers of bulbs, we are able to effect economies in our offers which are passed on to them without sacrificing quality or service.

They know that every variety listed has been tried and proven successful for the commercial grower. And this year, our handy pocket-size catalogue offers a greater variety than ever.

To you 'old' customers we express our appreciation for your past patronage and trust that we may continue to serve you.

Those who have not yet favored us with their business, we ask to try our products. We know that the high quality, low prices and exceptional service we offer will give you complete satisfaction—and that you too will become one of our steady customers.

Prices

All former price lists issued prior to January 1st, 1941, are cancelled. Being a wholesale catalogue all quotations are net and are subject only to the cash discounts offered under 'Terms'.

All items are offered subject to causes beyond our control and to being unsold on receipt of your order. We also reserve the right to cancel the prices quoted.

Service

Wire orders are filled the same day as received. All others within 48 hours.

Your inquiries are welcome, and we will be pleased to make suggestions either as to culture or to selection when requested.

Guarantee

We guarantee that all merchandise leaves our shipping point in good condition, packed in containers sufficiently strong and substantially secure to insure delivery in good order—but we do not assume risks in transit.

That all stock is inspected and found to be sound and free from disease when shipped.

Non-Warranty

Because actual growing conditions are something over which we have no control we do not guarantee productivity and will not in any way be responsible for the crop.

We allow five days after delivery for inspection by the purchaser but will absolutely not honor any complaints made after the expiration of this period.

All requests for adjustment must be made in writing to our main office at 149-155 W. 24th St., N. Y. C. and we assume no liability for those made in any other way.

Terms

5% off for cash with order.

2% off for payment within 10 days.

All bills payable net 30 days.

Unless credit is established with us please give us references and allow us sufficient time for checking.

All quotations are for shipment F. O. B. New York.

Gladiolus

Leading Commercial Dahlias

Outstanding Novelties and Cut-Flower Varieties

Dahlias, long-time garden favorites, have within the past few years become the most important of our outdoor-grown cutflower crops.

This is undoubtedly due to the many fine commercial varieties recently introduced—easier to grow—and less affected by adverse weather conditions, they produce more flowers over a greater period—flowers that pack better and keep longer.

Following our established policy of listing only those varieties that have already established themselves in the big markets we have developed a large volume of sales. On account of this volume business we are able to list many varieties with these same exacting qualities at lower prices than generally offered.

Tuberous Rooted Begonias

With a dependable supply of excellent stock now being produced by one of the leading growers in California, these bulbs are once again assuming their old popularity. In addition to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded location. For an early showing it is desirable to start the bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state.
